PROJECTS

Admin Dashboard

Github - repo : https://github.com/miratshah27/AddMeIn

This is a UI based project where I have made a admin side dashboard which can be helpful to manage employees and get an idea of sales ,active users, etc. I have made use of MaterialUI and React-Router-DOM as well.

Meme Generator

Github - repo :https://github.com/miratshah27/meme-generator

This is a fun based project where you can create meme within 10secs I have made use of ImageFlip API to retrieve the meme templates

Expense Tracker

Github - repo : https://github.com/miratshah27/expense-tracker

This is a expense tracker with clean UI which uses React where you can manage your expense and keep a tract of income and expenditure.

Medium Excel Clone :

Github - repo: https://github.com/miratshah27/excel-clone

This is a excel like website which covers major features of Microsoft excel where you can change aesthetics of each cell as well you can work with formulas
